

TANZANIA RURAL REVIVAL UBORESHAJI MAISHA VIJIJINI TANZANIA

Annual
Report
2021

Tanzania Rural Revival works with people in two rural and remote districts of Tanzania, helping to fund their priorities and support their aspirations. We work through existing structures like local government, local organisations and schools.

Uboreshaji Maisha Vijijini Tanzania hufanya kazi na watu walioko vijijini katika wilaya mbili za Tanzania, ikisaidia kuwawezesha kiuchumi kufikia matarajio yao kufuatana na mapendekezo yao. Tunafanya hayo kupitia miundo iliyopo tayari kama serikali za mitaa, vikundi vya wenyeji vilivyopo na shule.

This report is a summary of TRR's activities in 2021. Once again, no-one from TRR in England was able to visit Tanzania in 2021 because of Covid restrictions but we have – with unfailing help from Sophia Ng'wango, our colleague in Dar es Salaam –

been able to continue with support for a number of projects in Makete and Nkasi Districts. If you want to know more about any of the work TRR does in Tanzania, please ask!

Our contact details are on page 7.

MAKETE DISTRICT

The people of Iloilo village have continued building the dispensary with TRR's financial support. With provision for electricity and water now built in, they were ready to do the finishing stages. TRR provided the next tranche of cash for plastering

walls and floors and putting in windows and doors. The community

Cheerful villagers in front of the Dispensary they've built

has really worked hard on this for the last few years, each photo we receive shows the building looking more and more inhabitable and we look forward to its completion.

There have been a number of changes of personnel at Makete District Hospital and an ambitious plan to build a new laboratory was produced by the new Medical Officer in Charge. TRR considered supporting this in a small way – it is a huge project - but plans have now been shelved as the MOC has relocated to continue his studies. We have, however, been able to send cider vinegar and carbon dioxide both for use with the cryo surgery equipment we supplied a while back. We have continued to support the womens co-operative groups. Juhudi women have carried on in their

efficient way with their shared and individual businesses and we are still planning to provide sewing machines to help Tunaweza set up a tailoring business.

Members of Wanawake Tunaweza, reading about themselves in our report

In Madihani village work has continued on improving the school's water supply with a knock on effect for the village itself. Repairs to one of the classrooms are completed. The

Inspecting new window frames for a Madihani Classroom and below, the Teachers' toilets now in use at Muhulu

teachers' toilets at Mahulu Primary are now finished, following the provision of paint, and work on the kitchen at Katenga Primary continued. At Ulumba Primary, money

Foundations for the nursery toilets at Ulumba

has been sent to build the foundations for new toilets to go with the new nursery classroom.

At secondary school level, work continued on the girls' dormitory bathrooms at Kipagalo (painting) and Usililo (building still). Usililo has received a quantity of mattresses for the girls too. While these sanitary arrangements are not completed at

Kipagalo dormitory with the bathrooms to the right

Shower room at Usililo

New mattresses for the girls at Usililo

either of these locations, at least the girls in both schools have more comfortable sleeping and living arrangements now.

Outside Usililo dormitory

Last year we bought more desks and chairs for Ipelele Secondary School

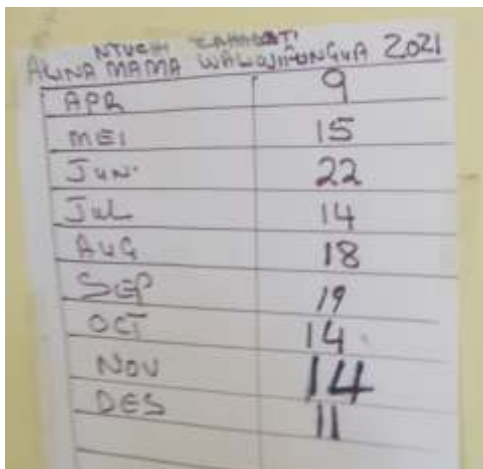

which are now in use. Free secondary education for all was introduced a few years ago, which is obviously a good thing as it means more eligible young people can attend, especially girls. At the same time the system of parental contributions was abolished. This included providing money for desks and chairs which meant the stock of these rather important items could be maintained. Now, with more students at all schools, there is just not enough school furniture to go round so TRR is helping to fill the gaps where we can.

As in previous years and working with the village Scholarship Committee, who identify the students who need help with travel to college and living expenses, we have supported six students in further or higher education.

As always, every four months we sent money to Bulongwa, Katenga, Mahulu, Idende, Madihani and Ulumba Primary Schools, through the Most Vulnerable Children's Committees, to help the children most in need with uniforms, shoes and other school expenses such as exercise books and pens.

NKASI DISTRICT

In Ntuchi, villagers have worked together to rebuild their dispensary which was destroyed by fire a few years ago. TRR has supported them by providing 'industrial materials' - plumbing supplies such as pipes, water heaters and washbasins and the means to fit them and aluminium framed windows .

A handwritten table with the title 'NTUCHI LAHATI WALAJIANGWA 2021' and 'ALINA MAMA' written at the top. The table lists the months of the year and the corresponding number of babies delivered. The numbers are written in red ink.

Month	Number of Babies
APR	9
MAY	15
JUN	22
JUL	14
AUG	18
SEP	19
OCT	14
NOV	14
DES	11

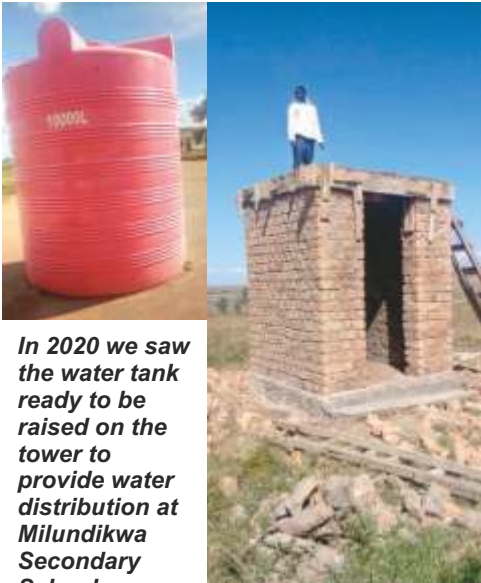

Number of babies delivered at Ntuchi in 2021

Once the outside shell of the building was up, it was suggested that they should work on half of it to get some health services up and running as quickly as possible. As a result basic services, including maternity, are now working successfully. Most babies are born at home but if there are difficulties the professionals step in

and more than 100 babies were born at the dispensary between April and December in 2021. The community is now looking to get on with the other half and we are planning to continue with our support.

The improvements to the water supply for four villages depending on the intake at Kantete continued and we supplied pipes and fittings to help the technicians deal with problems encountered as this huge project moved forward. This is a partnership between the four villages, the district council water department and TRR and we hope it is now coming to a conclusion. We understand that the supply of water is getting better now, though it has to be rationed at times.

Milundikwa Secondary School is a new building provided by the government a few years ago. For water, the school had to share the village pumps which was less than ideal. The school managed to get a borehole dug on its own premises and provided a pump to go with it. With help from Water for Kids, local fundis and the Council's Water Department have now mounted the tank on to the

In 2020 we saw the water tank ready to be raised on the tower to provide water distribution at Milundikwa Secondary School ...

Madina demonstrating that the water works - looks like it's Washing Day!

... we are pleased to report in 2021 that the work is complete

specially built tower and laid pipes around the school to a new tap adjacent to the girls' dormitory which the girls are very pleased about.

As usual, money was sent to Mkole, Kala and Swaila Primary Schools, through the Most Vulnerable Committees to help children most in

need with uniforms, shoes and other school expenses such as books and writing equipment.

We have also supported girls at Mkwamba and Mkole Secondary Schools with grants for food each term.
